## MEMORANDUM

DATE: January 26, 2010

TO: Steering Committee

FROM: John Wills, P.E.  
Wills Burke Kelsey Associates

SUBJECT: DuPage Mayors and Managers Conference – Planning Committee  
Stormwater Ordinance Update (WBK Project 09-0039)

MEETING DATE: January 21, 2010

---

A presentation was given on January 21, 2010 to the DuPage Mayors and Managers Conference Planning Committee. The presentation outlined where the ordinance update was to date. After the presentation, comments were taken from the audience. Provided below is a summary of these comments.

1. What is the expected timeline of the project?
2. Are we seeing frequent responses to the website? It appears that there is not enough dialogue.
3. Would it be possible to create an e-mail distribution list, and send an e-mail when a new blog post is made or document is posted for review.
4. Please take into consideration the impacts to communities when decisions are made, i.e. freeboard requirements and BMP requirements for single family residences.
5. Can the ordinance address the process of permitting as well as the content of regulation, since the process varies from community to community.
6. Is there an opportunity for comment from anyone on the website?
7. It may be possible for DMMC to form a subcommittee to advise, council and engage public officials and assist in distributing information. The DMMC offered their services of staff to be a link between Ordinance Update activities and the DMMC membership.
8. Will there be a blog post to provide feedback on the permit process?
9. The technical requirements of the ordinance have served communities well, the process of obtaining a permit is more difficult and takes a lot of time. Can something be done to assist this?
10. How many people from business community attended kick-off meeting?
11. Have we met with any builder's associations?
12. Who is on the steering committee?
13. Can the presentation be put on the website?
